Hematology follow-up

Patient ID: SYN-003

Document date: 2023-06-12

Visit note

Ms. Doe is seen for follow-up of iron-deficiency anemia first noted in early 2022. She completed a course of oral iron and her hemoglobin has normalized. She reports good energy and walks daily. There is no history of blood cancer. Bone marrow evaluation was not indicated. Plan: repeat ferritin in six months and continue a balanced diet.
